Formal "Opening" spring and summer millinery and other stocks tomorrow

-and the celebration of the fifth anniversary of the establishment of "Hechts' Greater Stores"-a dual attraction which forms the most interesting occasion of the season.

For weeks and weeks we've been planning and preparing, and our efforts crystallize tomorrow in the most magnificent "showing" of trimmed and untrimmed millinery, flowers, and foliage that we have ever asked you to come and view. It is a showing of which we are proud, for it is comprehensive in every sense of the word, and every hat-conceit is represented—the conjurings, the ideals, of the most prominent artists of Paris and New York and the handsome conceptions of our own deft milliners, which are as handsome as any.

Aside from the millinery display it will also be a formal showing of the new fashions for spring in ladies' tailor-made suits, costumes, skirts, jackets, capes, underskirts, and silk waists-an exhibit of the rich and rare dress stuffs and silks, the new ribbons, neckwear, lace and embroideries, shirt waists, upholster-

ies, baby carriages, go-carts, and men's and boys' clothing.

And it will be Hechts' sixth birthday—the beginning of our sixth year in business in this city, and we shall fittingly celebrate it by offering souvenir bargains in every department—worthful souvenirs which you'll best appre-

Right at the threshold of this store's sixth year the proprietors of this great organization cannot refrain from expressing their appreciation of your patronage. They feel that it is a testimonial to their mode of storekeepingtheir "charge system," which has held out its helping hand to thousands and enabled them to live better clothes without having to feel the inconvenience which paying cash means. For all this you have not been asked a penny extra; on the contrary, you have bought for less than you have ever bought before. For this grand success we thank you a thousand times, and again extend to you an invitation to be present tomorrow, Tuesday, or Wednesday.

Women's ready-to-wear suits, skirts and silk waists.

It is a natural consequence that we should lead in women's ready-to-wear suits, skirts, silk waists, and the like. Instead of buying just what is shown in the markets, we go to the leading designers, choose our own fabrics, give our special directions as to style and details in workmanship, and thus get ready-to-wear garments which are not surpassed even by the crea-

tions of exclusive dressmakers. Orders placed for this and three other large retail stores in Baltimore, of which this store is but a link, exceeds the purchases of any other concern.

Thus do we get garments that are the very acme of perfection and by the immensity of our orders prices which enable us to un-

Last season we asked you to see the largest stock ever shown in the city. Again we have exceeded previous showings, determined to make a bigger bid for your patronage than ever before, with lower prices as an extra inducement.

Aside from the suits represented below, there are to be seen here the most elaborate productions which are made up-novelties by the score, with the richest and most elaborate trimmings, embodying the most exclusive ideas and equal in workmanship and fit to the elegant costumes of the most exclusive modistes.

This is a return to the former practice, which was changed last year at the request of persons who interested themselves in the matter and induced the Commissioners to issue an order that the cars should roop on the far side of the street.

The change proved unsatisfactory in many particulars, and resulted in several accidents so the apparatus of the Fire artment while running to fires.
